

Communications Platforms/HiPath 3000 Range

HiPath 3000 V8.0

HiPath 3000 is an innovative and flexible range of convergence platforms that perfectly adapts to the needs of small and medium sized businesses with up to 500 users. Whichever size of platform you choose they are ideal for both packet-switched (LAN/WAN) and line-switched (ISDN) environments and can provide the flexibility of mixed infrastructures where Voice over IP is installed but traditional analog and digital telephones, fax machines, and modems are still in use. The HiPath 3000 supports any combination of IP, analog, and digital telephones, as well as PC clients and cordless phones. This guarantees gradual migration to IP on both the network side and user side at a pace that suits you and your business.

The HiPath 3000 provides a total business communication solution with the enhanced features of traditional telephony and IP combined with applications, such as Mobility, Customer Relationship Management and Unified Messaging solutions.

The range from 4 up to 500 user systems consists of rack mounted and wall mounted variants;

HiPath 3300 / 3350
HiPath 3500 / 3550
HiPath 3800
